

Sustana EnviroLife™ is a 100% sustainable recycled fiber made in the USA compliant with FDA standards for use in direct food contact packaging at 100% inclusion without the need of a barrier of any type.

Our blend of recovered hardwood and softwood fibers gives EnviroLife strength and durability for packaging, board and molded fiber applications supporting a circular economy.

- Compliant with FDA standards with all food types under all conditions of use\*
- Fluorescent free
- Elemental chlorine free
- Kosher available upon request

EnviroLife sustainable recycled fiber may contain up to 10% recycled paper beverage cups and aseptic & gable top cartons.

**NOW IN DRY BALE FORM**

- Increased shelf life
- Reduced shipping costs
- Easier to handle and stack
