

Sustana EnviroTouch™ sustainable recycled fiber is suitable for the production of tissue, towel, technical papers and white top liner.

This product provides manufacturers an exceptionally clean, environmentally sound recycled fiber that performs consistently on-machine, with low levels of dirt and minimal stickies.

- High freeness
- Low ash
- Low stickies
- Processed chlorine free

NOW IN DRY BALE FORM

- Increased shelf life
- Reduced shipping costs
- Easier to handle and stack
